# Telephone, Internet, Networking and Event Technology Services

At the Anaheim Convention Center, your event is on the leading edge of technology. Our Telephone, Internet, Networking and Event Technology Services include:

- **Complete Telephone Services (Single line, multi-line, Dedicated modem line)**
- **ISDN, T-1 and other Special Data Circuits**
- **High-Speed Internet Access**
- **Temporary LAN/WAN/VPN Construction**
- **Point-to-Point Networking**
- **Webcasting (Internet Broadcasting)**
- **Internet/E-mail stations/"Cyber Cafes"**
- **Wi-Fi (Instant Wireless Internet) for Convention/Meeting Venues**
- **Custom Security Solutions**
- **Dedicated Monitoring**

In addition to our complete administrative and event telephone services, Smart City offers high speed Internet access using gigabit or faster Ethernet protocols to all exhibit spaces and meeting rooms. Our network service professionals also offer turnkey data networking services that will enable you to create Local Area Networks (LANs), Wide Area Networks (WANs) and Virtual Private Networks (VPNs), all using the latest technology. Custom configurations are available upon request.

With Smart City, each meeting room and exhibit hall can be networked with your hotel rooms or offices creating dedicated city-wide networks.

Our unique event technology offers on-line services that will set your event apart for any other. Create Internet broadcasts of your event that can be seen worldwide or set up customized Internet access and E-mail centers for your attendees. Feel free to be creative because at the Anaheim Convention Center, we are dedicated to fulfilling your technical needs!
