

4.2.6 Anaheim Way

Anaheim Way is a one-way northbound frontage road on the east side of the Santa Ana Freeway. The landscape for Anaheim Way will be integrated into a large-scale landscaped open space treatment intended to attract the attention of passing motorists on the Santa Ana Freeway. The treatment will consist of Mexican Fan Palms with flowering vines attached to their trunks in parkways with a single species mass of Daisy or other yellow flowering shrubs. Mexican Fan Palms will also be planted in the setback area along with small accent trees and flowering shrubs. Boston Ivy will be attached to the wall per Santa Ana Freeway standards.

Boston Ivy
(Parthenocissus tricuspidata)

Mexican Fan Palm
(Washingtonia robusta)

Daisy
(Chrysanthemum)
