

ANAHEIM

## Statewide Compliance and Outreach Program

The City of Anaheim has been notified by the State Board of Equalization (BOE) that its Statewide Compliance and Outreach Program (SCOP) will be canvassing our city over the next nine months. The goal of SCOP is to provide tax education, increase tax compliance and ensure all retailers are treated fairly.

We find it imperative to inform you at the first opportunity about this State-initiated effort and we hope this doesn't cause you too much inconvenience. All business owners should receive a letter, approximately one month prior, notifying them when SCOP representatives will be visiting businesses in their zip code. All BOE representatives are required to introduce themselves as such and show BOE-issued identification.

Should you have any questions, please refer to the Statewide Compliance and Outreach Program online at:
