DEPARTMENT OF PUBLIC WORKS

Gary E. Johnson, Director of Public Works/City Engineer

To: City Manager/City Council

From: Department of Public Works

Date: February 21, 2006

RE: Master Agreement for Electrical Overhead and Underground Sub-Transmission, Distribution, Substation, Communication, Maintenance, Repair, and Relocation Services

FOR INFORMATION ONLY, the Department of Public Works is advertising for qualifications and bids to participate under the Master Agreement to perform a variety of electrical services.

The work to be done will generally be similar to the work described by each of the work order samples included in the Contract Documents, such as overhead primary reconductoring, 12kV underground substructures and conduits, substation related work, directional boring and direct buried cable replacements, 69kV overhead and underground transmission work, not excluding component work on communications systems as well as maintenance repair, and/or relocation of any system and all appurtenant work as shown on the plans and delineated in the specifications.

This agreement will expedite this construction contracting process vital to the continued uninterrupted and/or expeditiously restored operation of the Electric Utility Systems.

NOTE: There will be a "NON-MANDATORY" pre-bid conference March 30, 2006 in the Gordon Hoyt Conference at 201 S. Anaheim Boulevard at 2:00p.m.

No bid bond required.

Liquidated Damages will be assigned per work order package. See Attachment A for additional project information.
