

Name: GAIL EASTMAN

Occupation: Businesswoman/Planning Commissioner

Anaheim has been my home for over 25 years while serving the City in many different volunteer capacities. As your Planning Commissioner for seven years I've made decisions that improved the local economy while protecting our quality of life. As Chairman I voted to preserve the Resort District zoning. I also led efforts to preserve our City's past, authored a children's book on the history of Anaheim, and helped raise funds to provide free copies to third grade students in our community.

I am running for City Council because of my vision for Anaheim that respects our past, enhances our present, and builds a stronger future.

As your Councilmember I will ensure our city runs efficiently so that our tax dollars work to strengthen police and fire services. Working with residents to find solutions to improve all our neighborhoods, promote quality schools, recreation facilities, and support good planning to enhance business and housing opportunities will be my priority.

I do not consider myself a politician rather a resident who believes the City Council is now the best place to further serve our community.

I respectfully ask for your vote on November 4th.

Vote Gail Eastman for Anaheim City Council
