Mr. Raymond H. LaHood
Secretary of Transportation
U.S. Department of Transportation
1200 New Jersey Avenue, S.E.
Washington, D.C. 20590

RE: City of Anaheim, California (Orange County)
Gene Autry Way (West) Highway/Interstate 5 HOV Interchange Project

Dear Secretary LaHood:

Lennar Homes of California, Inc. strongly encourages your favorable consideration of Anaheim's Transportation Investment Generating Economic Recovery (TIGER) grant application.

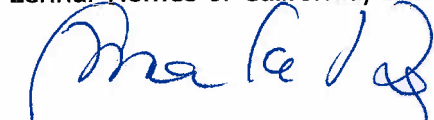

TIGER grant funds are requested to complete the Gene Autry Way (West) Highway/I-5 HOV Interchange Project that began in 1991. This project is an important step for some of Anaheim's most promising future developments such as those within the Platinum Triangle Project: an innovative mixed-use development that will create a walkable shopping, living and commerce area next to Angel's Stadium.

Lennar is currently in the process of coordinating our building efforts for our properties within the Platinum Triangle Project that will revitalize central Anaheim through new developments that are adjacent to parts of Gene Autry Way. Gene Autry Way will be a key entry point to this project and will serve workers traveling to thousands of newly created jobs in this development area.

The Gene Autry Way (West) Highway/I-5 HOV Interchange Project is a top priority project for the City of Anaheim and of key importance to the many development projects in the Platinum Triangle, including ours. We encourage your support of this important project and urge your favorable consideration.

Sincerely,

Lennar Homes of California, Inc.

Donna Kelly
Vice President of Community Development
