Home Depot or Lowes

**Department of Public Works
Public Works Operations Division**

400 E. Vermont Avenue
Anaheim, CA 92805
(714) 765-6860

Sandbag Information

During inclement weather, the Streets and Sanitation Division will provide sandbags to residents for their use. The City provides a maximum of 10 bags for each single-family dwelling and 25 for multi-family or commercial complexes. They are available at two locations:

Streets and Sanitation Yard
400 E. Vermont Ave.

Monday-Thursday and every other Friday, 7:00-5:00 pm

Proof of Anaheim residency or business ownership must be provided when picking up sandbags. Please note that only the bags are provided; fill materials are the responsibility of the recipient. If sand is not available, substitute dirt from your planters. Sandbags can also be purchased from major hardware stores and home centers.

Sandbags may be available at the Orange County Public Facilities and Resources yard at 1750 S. Douglass Road (714) 567-6300. Hours of operation are Monday through Friday from 6:00-4:30 pm.

Sandbagging Information

Fill the bag about 1/2 full. Use soil for your planter areas. Then after the storms, the soil can be returned to the plant and you will not have excess soil to discard. Sandbags will rot in the sun. Placing them out too early in the storm season may cause more problems if the bags are rotting. Check the bags for rips or weak spots/seams. Keep plastic sheeting available in case of an emergency. Clean out your drains, roof gutters, down spouts, and any other water path that may be impeded. Check these frequently as debris will collect after each rain.
