

DEVELOPMENTAL SCHEDULE D-FIT

DEVELOPMENTAL FEED-IN TARIFF

APPLICABILITY

Applicable to owners and operators of electric generation facilities located within the City's service territory who wish to sell to the City the renewable power output from an eligible small-scale Distributed Generation Resource, with capacity of not more than 3 MW.

This developmental rate shall be closed once a permanent Feed-In Tariff is developed.

AVAILABILITY

This developmental Rate Schedule is available on a first-come, first-served basis until the combined rated generation capacity within the City's service territory reaches 8 MW.

RATES

Once both parties have executed a Standard Form Feed-In Tariff Power Purchase Agreement ("Agreement"), Anaheim shall pay the owner or operator ("Distributed Generator") for each megawatt-hour ("MWh") of energy and associated capacity delivered to the City during each contract year for the delivery term.

The rate shall be calculated each Fiscal Year based on the sum of the California Independent System Operator Integrated Forward Market South of Path 15 ("SP 15") Generation Hub price ("GHP") or its successor and the average premium for delivered renewable energy reported to the Department of Energy ("DOE") by utilities within the Western Electric Coordinating Council ("WECC"). The annual offer price ("AOP") determined by this calculation as well as the components of the calculation shall be posted on the City's website. The formula used to determine the AOP shall be as follows:

$$\text{AOP} = \text{SP 15 GHP} + \text{Average Premium for Delivered Renewable Energy Reported to DOE by WECC}$$

The above calculation shall then be applied to the following table based on the time the energy is delivered to the City's electric distribution system.

Time of Delivery Periods & Factors

Season	On-Peak	Mid-Peak	Off-Peak
Summer	1.50	1.00	0.60
Winter	N/A	1.00	0.60

Time periods are defined as follows:

On-Peak: 1:00 p.m. to 5:00 p.m.; summer weekdays except holidays.

Mid-Peak: 8:00 a.m. to 1:00 p.m. and 5:00 p.m. to 10:00 p.m.; summer weekdays except holidays.
7:00 a.m. to 9:00 p.m.; winter weekdays except holidays.

Off-Peak: All other hours.

Holidays are New Year's Day, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day, and Christmas.

DEVELOPMENTAL SCHEDULE D-FIT

DEVELOPMENTAL FEED-IN TARIFF

AVAILABILITY (Continued)

When any holiday listed above falls on Sunday, the following Monday shall be recognized as an off-peak period. No change in off-peak hours shall be made for holidays falling on Saturday.

The summer season shall commence at 12:00 a.m. on June 1 and continue until 12:00 a.m. on October 1 in each year. The winter season shall commence at 12:00 a.m. on October 1 of each year and continue until 12:00 a.m. on June 1 of the following year.

SPECIAL CONDITIONS

- A. Distributed Generators that develop Distributed Generation Resources to sell renewable power to the City under this developmental Rate Schedule shall execute an Agreement with the City.
- B. The developmental Rate Schedule shall be offered for Agreement durations of 10, 15, or 20 years at the option of the Distributed Generator.
- C. Distributed Generators seeking this developmental Rate Schedule are not eligible and may not also obtain benefits from any of the following:
 - 1. A power purchase agreement with the City for deliveries from the same facility;
 - 2. Incentives from the City under customer programs implemented in compliance with requirements of Senate Bill 1 (Murray) or such successor statutes as amended from time to time, or similar programs; or
 - 3. The net metering option for energy deliveries from the same facility.
- D. A Distributed Generation Resource eligible under this developmental Rate Schedule shall deliver to the City both the energy generated and any environmental attributes associated with that energy.
- E. Distributed Generation Resources eligible under this developmental Rate Schedule shall be interconnected within the City's service territory and shall be required to comply with the City's process for interconnection. Any resources not meeting these requirements shall not be eligible for this developmental Rate Schedule.
- F. Distributed Generation Resources eligible under this developmental Rate Schedule shall comply with all applicable rules in installing a meter appropriate for full buy/sell or excess sale agreements, and which can be read by electronic means acceptable to the City. The Distributed Generator shall be responsible for procuring and maintaining any communication link required by the City for retrieving meter data.
- G. The City shall pay the eligible distribution generator the applicable price for metered energy delivered during the time periods specified for the chosen Agreement term and start year. The start year is the fiscal year in which commercial operation actually begins.
- H. General Manager

As with all developmental rates, the Public Utilities General Manager, at his or her sole discretion, may implement, modify, restrict, or close this developmental Rate Schedule upon notification and approval of City Council.
