

FOR YOUR HOME

Residential Solar Energy Bonus Program for HIP Participants

If you have a solar energy system, or plan to install one in the future, don't throw that solar power out the window! Instead, take steps to generate solar energy wisely. By participating in the Home Investment Package you will be on your way to being super energy efficient. And as an additional step to installing solar energy, you have the assurance that the power you generate will be used by you and your family and not go out the window.

If you participate in the Home Investment Package, you can receive a bonus of \$1 per watt for your solar energy system. This extra funding helps reduce the cost of being energy efficient and protects your solar energy investment.

How the Program Works

STEP	Here's what you will do	For Information and Details
1	Install your solar energy system per our Residential Solar Energy Program guidelines.	Program Manager: 714/765-4182 Residential Solar Energy Program Information: http://www.anaheim.net/utilities/adv_svc_prog/pv/pv_intro.pdf .
2	Schedule a Home Investment Package (HIP) survey. A HIP contractor will come to your home and conduct a home survey. They will then submit a proposal to you for full-home diagnostics.	HIP Contractor: 866/219-3496 Home Investment Package Program Information: http://www.anaheim.net/utilities/grn_con/HIP.pdf
3	Have the HIP contractor complete the full-home diagnostics (Test In). In 2-3 weeks, you will receive a diagnostic report with recommendations for energy savings, dollar savings, and costs to implement energy savings measures.	Test In Report Cost: \$300-\$500
4	Review the diagnostics report with the Residential Solar Energy Program Manager and determine what energy efficiency measures to implement in order to receive your \$1 per watt bonus for your solar energy incentive.	Program Manager: 714/765-4182 - Recommended measures based on annual dollars saved (\$100 a year saved is target) - In order to be eligible for \$1 per watt more for solar energy incentives, you need only invest in energy efficiency measures that are of equal cost as your bonus solar energy incentive.
5	If you decide to complete the work recommended by in the HIP report, the HIP program manager will put you in contact with a qualified HIP contractor.	HIP Contractor: 866/219-3496
6	A follow-up visit will be conducted by the HIP contractor (Test Out) to verify your energy efficiency measures are complete and your home is super energy efficient.	HIP Contractor: 866/219-3496 Test Out Report Cost: \$300-\$500
7	The Residential Solar Energy Program Manager will review the final report and your request for a \$1 per watt bonus for your solar energy incentive.	Program Manager: 714/765-4182

Program Criteria

Applicant must be an Anaheim Public Utilities' electric customer with a non-delinquent account;

Customers must be participants in the Home Investment Package program;

Customers must use Anaheim's approved list (certified by the Building Performance Institute) of auditors and contractors to complete the HIP work.
