

FOR YOUR BUSINESS

COMPREHENSIVE ENERGY AUDIT

A Comprehensive Energy Audit of your business could be your first step to saving thousands, and ultimately boost your bottom line. Anaheim Public Utilities offers free, customized energy audits to its business customers to help efficiency-minded companies identify ways to optimize their use of energy. The audit includes an in-depth analysis of a business' facility and equipment, including:

- building envelope (insulation, widow tint, cool roofs, etc.)
- equipment operation
- HVAC system
- industrial processes
- lighting
- motors
- refrigeration
- water heating
- more

Plus, through its portfolio of Advantage Services, Anaheim Public Utilities offers incentives and rebates to encourage businesses to make energy-efficiency improvements.

HOW THE PROGRAM WORKS

1. An Anaheim Public Utilities specialist will conduct a thorough energy analysis at your site.
2. You will be provided an energy audit report which highlights recommendations of where you can save energy, an analysis of existing systems, proposed efficiency upgrades, an energy cost evaluation, estimated installation costs and applicable incentive amounts.
3. Should you choose to implement energy efficiency measures, our specialist can assist you in obtaining installation bids. You will also be introduced to other Advantage Services that can help you implement energy efficiency measures, and in turn boost your bottom line.

PROGRAM CRITERIA

The criteria for participation in this program are that you:

1. Operate a business located within Anaheim;
2. Be an Anaheim Public Utilities electric customer; and
3. Have an electric load equal to or greater than 50 kW.

PROGRAM ADVANTAGES

Customers who take advantage of our Comprehensive Energy Audit Program will receive a customized on-site analysis, which will identify changes that will help them use energy more efficiently. Customers also will be learn steps they can take to reduce their electric use as much as 10% to 25% a month, long-term, by implementing the recommendations made from the survey and installing energy efficiency equipment and measures.
