

FOR YOUR BUSINESS

ECONOMIC DEVELOPMENT/BUSINESS RETENTION RATE INCENTIVE

Anaheim Public Utilities' already competitive electric rates are now even better for qualifying Anaheim businesses. For efficiency-minded businesses with plans to grow in our community, we offer a monthly credit – 15 percent to start – off our GS-2 rate for larger qualifying commercial/industrial customers with a demand of more than 200 kilowatts and load factor of more than 60 percent.

HOW IT WORKS

If you are:

1. Relocating your business to Anaheim with a projected electric demand of 200 Kw or more,
 2. Expanding your existing Anaheim business operation by a minimum of 200 Kw,
 3. Considering moving your company out of Anaheim and have a 200 Kw minimum demand or
 4. Moving into a facility deemed qualified for a benefits as a "Green Building," including LEED U.S. Green Building LEED certification,
- call us at **765-4258** to learn how you can save money.

When you call, our Anaheim Public Utilities specialist will work with you to determine if you qualify for this Economic Development/Retention Electric Rate incentive. If you do, your load factor will be calculated each month based on your actual use. For each month that your load factor calculates at 60 percent or more, your discount will be 15 percent during the first year, 10 percent during the second year and 5 percent during the third year – the discount applies each month as a credit to your actual bill as calculated on the applicable GS-2 rate.

PROGRAM ADVANTAGES

Should you qualify, not only will you be saving money, but you will also benefit by being more energy efficient. We will help you implement cost-effective energy-efficiency measures, most of which include money-saving incentives to help offset the incremental costs of more efficient equipment.
