

# FOR YOUR BUSINESS

## Lighting Incentives Program

*Changing light bulbs can save more money than you think.*

Did you know that changing standard T12 fluorescent lamps to T8 fluorescent lamps with electronic ballasts can save 10 to 25% on your electric bill each month? We even provide financial incentives to reduce the cost of making the switch! Incentives are \$.075 per kWh of reduced lighting energy use or \$200 per kW of reduced on peak demand, whichever is greater.

### How the Program Works

1. We will provide a free on-site lighting audit including an analysis of your existing lighting system, proposed lighting-efficiency upgrades, an energy cost evaluation, estimated installation cost, incentive amount and more.
2. Based on the audit findings, you determine what lighting improvements to make and select the vendor of your choice.
3. Before beginning improvements, confirm upgrades with Anaheim Public Utilities. Lighting installations must begin within 60 days of approval and be completed within the following 60 days.
4. After installation, our representative will come to your site to verify the improvements.
5. You will receive your incentive check within 6 weeks of the post-construction inspection and our receipt of a copy of your paid itemized invoice.

**Note:**  
 Anaheim Public Utilities offers lighting seminars and presentations to help you better understand the wide range of energy-efficient lighting options. Call 714/765-4259 to inquire.

Examples of Annual Savings			
Type of Lighting System	100 4-lamp fixtures	500 4-lamp fixtures	1,000 4-lamp fixtures
Operating Costs of Standard lamp and standard ballasts	\$6,912	\$34,560	\$69,120
Operating Costs of T8 lamps and electronic ballasts	\$3,789	\$19,080	\$38,160
<b>Annual Energy Savings</b>	<b>\$3,123</b>	<b>\$15,480</b>	<b>\$30,960</b>

Assumptions: 3,000 annual operating hours & \$0.12/kWh cost; 192 watts for standard 4-lamp system; 106 watts for energy efficient 4-lamp T8 electronic ballast system.
