

SCHEDULE W-T

TEMPORARY SERVICE

APPLICABILITY

Applicable for construction work, circuses, Christmas tree lots, bazaars, fairs, plumbing pressure testing, or other similar uses, where the installation of a permanent service connection is considered impractical. Temporary meters will be used for this type of service after an appropriate application and deposit have been made.

RATES

RATE (48) - Metered Connections	PER METER PER MONTH
Customer Charge:	
Per inch of meter size	\$ 6.25
Commodity Charge:	
Per 100 cubic feet	\$0.820
The current commodity adjustment amount and pumping surcharge amount, as applicable, shall be added to the above commodity charge. The explanations of the current commodity adjustment and pumping surcharge amount are located in Schedules W-CA and W-PS.	
Minimum Charge: The minimum charge shall be the customer charge.

SCHEDULE W-T

TEMPORARY SERVICE

SPECIAL CONDITIONS

- A. This schedule is subject to Schedules W-CA, W-PS and rules and regulations of the Utility.
- B. Permit holders are required to submit meter readings of the temporary meters on a monthly basis on forms provided by the Utility. If the forms are not returned within 10 days from the date sent and it becomes necessary that a Utility inspector obtain meter readings at the job site, an additional \$16.50 fee will be applied.
- C. Temporary metered connections may be terminated at any time, and will be at the discretion of the Utility.
