

+COUNCIL AGENDA REPORT

City of Anaheim OFFICE OF THE CITY TREASURER

DATE: MAY 17, 2011
FROM: OFFICE OF THE CITY TREASURER
SUBJECT: INVESTMENT PORTFOLIO REPORT – APRIL 2011

ATTACHMENT (Y/N): YES ITEM #

RECOMMENDATION:

That the City Council, by Motion, approve the Investment Portfolio Report for April 2011.

DISCUSSION:

This is the investment report for the City's general pool for the month ending April 30, 2011. The report is provided to ensure that the City Council is informed as to the investment activities and fulfills the reporting requirements of the City's adopted investment policy.

COMPLIANCE:

All investment transactions were executed in accordance with the California Government Code and the City's Investment Policy. There is sufficient liquidity to meet the City's anticipated expenditure requirements for the next six months.

INVESTMENT SUMMARY:

The following table shows summary investment information for the month ending April 30, 2011:

	Short-term Portfolio	Long-term Portfolio	Total Portfolio Values
Portfolio Balance (Market Value)	\$ 116,033,678	\$ 227,553,117	\$ 343,586,795
Effective Yield	0.37 %	2.60 %	1.83 %
Avg. Weighted Maturity	5 Days	2.2 Years	1.5 Years
Net Earnings	\$ 28,317	\$ 493,554	\$ 521,871
Benchmark*	0.09%	0.94 %	0.61 %

* Benchmark value is the Interpolated Treasury Yield to the Portfolio's Avg. Weighted Maturity

INVESTMENT ACTIVITIES

The City Treasurer's Investment Portfolio received a credit rating of AAf and a volatility rating of S1 from Standard and Poor's in July 2008. The portfolio is reviewed monthly by Standard and Poor's for portfolio holdings, liquidity values and the overall management of the investment staff. Standard and Poor's reaffirmed the City's AAf credit rating during their annual June 2010 due diligence review. The City of Anaheim is only the fourth City in the country at this time to receive the prestigious credit rating.

In addition to independent verification of the high standard for the City’s investment program, the AAaf credit rating is recognized by leading bond insurer's as a highly safe investment option for future City bond issues and to include the City’s portfolio as a ‘permitted investment’ in the bond covenants.

On August 11, 2008, the City of Anaheim’s Investment Policy was recognized and certified by the Association of Professional Treasurers of the United States and Canada (APT US&C) as meeting all standards and criteria established by the APT US&C.

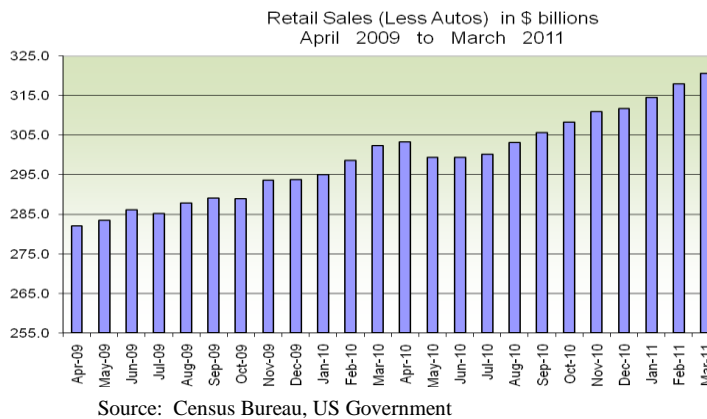

INVESTMENT ENVIRONMENT

The economy continues to show signs of a slow but steady recovery. A primary economic indicator we have been watching is the national unemployment rate, which tends to show the overall health of the national economy. For the month of April 2011, the national unemployment rate was reported at 9.0%, up from the March 2011 value of 8.8%.

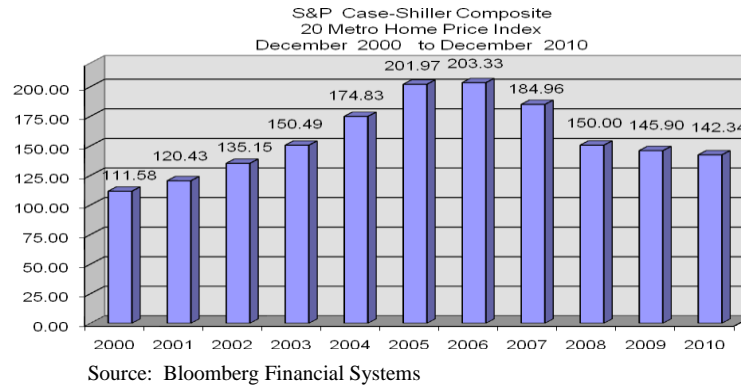

However, the Bureau of Labor Statistics May 6, 2011 news release reported that “. . . nonfarm payroll employment rose by 244,000 in April. Job gains in several service-providing industries, manufacturing, and mining.” The increase in job creation shows an incremental increase in economic growth, although the increase in unemployment indicates the overall national workforce is still adjusting to the recovery. It should be noted, the unemployment rate is considered a “lagging” indicator for immediate financial and economic events are delayed in being reflected in the unemployment rate. The chart below shows the national unemployment rate for the past twelve months:

Another key economic factor we review is the monthly Retail Sales (less Autos), which measures the spending of consumers and indicates the underlying vitality of the overall national economy. The release of April data was not released until after this report was created, however, the chart below shows the monthly increase in consumer spending for the past twenty four months:

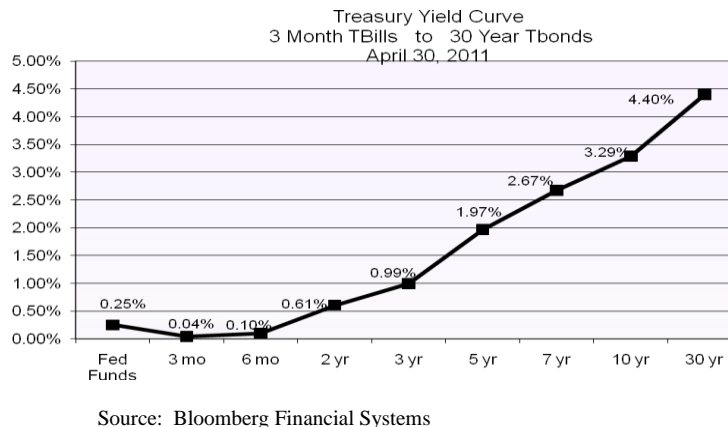

A critical sector of the economy has been the decline in the housing sector. Many consumers have used the increased home equity value as a “bank” in financing everyday purchases, which provided funds for increased retail sales prior to September 2008. The economic crisis in the fourth quarter of 2008 showed a significant decline in housing values due to over-extended consumers using variable rate mortgages. The following chart shows the national housing price trend for 20 Metro Cities, with an ending value of 142.34 as of December 2010, which is similar to the values for the years 2002 and 2003. Economists do not expect this index to show any significant improvement for several years.

Interest rates for April 2011 moved lower from their March 2011 levels. Concerns in April about the economy slowing caused investors to push Treasury interest rates lower, with the six month Treasury Bill closing the month at 0.10%, down from March 2011 level of 0.17%. The two year Treasury Note closed April at 0.61%, down from the prior month value of 0.83% and the ten year Treasury Note ended April 2011 at 3.29% from March 2011 close of 3.47%.

The Federal Reserve announced at the April 27, 2011 ‘Federal Open Market Committee’ (FOMC) meeting that the ‘target’ Federal Funds rate would remain at the range of 0.0% to 0.25%, citing continued “risk to growth” to the economy. This key market interest rate has remained at this level since the FOMC meeting on December 16, 2008. The Federal Funds interest rate is the interest rate that banks charge other banks to borrow money.

The chart below shows the interest rates for U. S. Treasury issues for the month ending April 2011:

The City’s investment portfolio remains strongly diversified and invested in high credit quality issues of U.S. Treasuries, Federal Agencies, Medium Term Corporate Notes and high grade commercial paper. Investments in money market accounts are restricted to U.S. Treasury and Federal Agencies only and a review of the State of California Local Agency Investment Fund (LAIF) shows high levels of liquidity and safe investments. The City’s investment strategy continues to focus on safety and providing liquidity for the City’s operational requirements.

INVESTMENT PERFORMANCE

For April 2011, the City Treasurer’s Investment Portfolio performance was:

	Amount of Funds (Market Value)	Maturity	Effective Yield	Interpolated Yield	Total Return Monthly	Total Return Annual
Short-Term Portfolio	\$ 116,033,678	5 days	0.37 %	0.01 %	0.032	0.388
Long-Term Portfolio	\$ 227,553,117	2.2 years	2.59 %	0.67 %	0.614	3.053
Total Portfolio	\$ 343,586,795	1.5 years	1.83 %	0.38 %	0.438	2.222

Please note the use of interpolated yield values and total return values are guidelines and not used in the performance evaluation of the portfolio. The investment of public funds is exposed to a large range of variable factors, such as increases or decreases in revenues and expenditures as well as seasonal timing, which can affect the cash flow of the City.

The City’s investment portfolio continues to provide an above market rate of return on funds as shown in the following graph which shows the City’s net overall performance to a market indicator for the past twelve months:

Source: Treasurer’s Office, Anaheim

A complete listing of the portfolio holdings and investment activity for the City of Anaheim’s Investment Portfolio for the month of April 2011 is on the following pages.

IMPACT ON BUDGET:

There is no impact on the General Fund.

Respectfully submitted,

Henry W. Stern, CTP
City Treasurer

FUND PROFILE

March 31, 2010

City of Anaheim Treasurer Investment Pool

Credit Quality Ratings Definitions

AAAF The fund's portfolio holdings provide extremely strong protection against losses from credit defaults.

AAf The fund's portfolio holdings provide very strong protection against losses from credit defaults.

Af The fund's portfolio holdings provide strong protection against losses from credit defaults.

BBBf The fund's portfolio holdings provide adequate protection against losses from credit defaults.

BBf The fund's portfolio holdings provide uncertain protection against losses from credit defaults.

Bf The fund's portfolio holdings exhibit vulnerability to losses from credit defaults.

CCCf The fund's portfolio holdings make it extremely vulnerable to losses from credit defaults.

Plus (+) or Minus (-)
 The ratings from 'AAf' to 'CCCf' may be modified to show relative standing within the major rating categories.

Credit quality ratings, identified by the 'f' subscript, are assigned to bond funds and other actively managed funds that exhibit variable net asset values. These ratings are current assessments of the overall credit quality of a fund's portfolio. The ratings reflect the level of protection against losses from credit defaults and are based on an analysis of the credit quality of the portfolio investments and the likelihood of counterparty defaults.

About the Fund

Fund Rating	AAAf / S1
Fund Type	Variable NAV Government Investment Pool
Investment Adviser	City of Anaheim CA
Portfolio Manager	Henry Stern, CTP
Fund Rated Since	July 2008

Portfolio Composition as of March 31, 2010

AGCY - Agency Fixed Rate; DCP - Commercial Paper; MMF - Money Market Fund; BOND - Corporate Fixed Rate

*As assessed by Standard & Poor's

Fund Highlights

- Average maturity 2 years or less
- The portfolio must purchase securities with a rating of A or better

Management

The Treasurer for the city of Anaheim, CA is responsible for overall management of the portfolio. The Treasurer has prior experience managing S&P rated government investment pools during his tenure at the cities of Los Angeles and Long Beach. The city of Anaheim's \$400+ million portfolio is being divided into a shorter-term and a longer term portion, where \$100-\$125 million comprises the shorter-term component. The investment policy, which was last revised and approved in January 2009, apply to all cash and investments controlled by the Anaheim Treasurer on behalf of the City.

Credit Quality

The 'AAAf' fund credit quality rating is based on our analysis of the credit quality of the Portfolio's eligible investments, the counterparties, and overall management by the portfolio's investment managers. The 'AAAf' rating signifies that the portfolio holdings provide extremely strong protection against losses from credit defaults. The 'S1' volatility rating signifies that a fund possesses low sensitivity to changing market conditions and a level of risk that is less than or equal to that of a portfolio comprised of the highest quality fixed-income instruments with an average maturity of one to three years. As part of our volatility analysis, we assessed the management, portfolio-level risk, target durations, and comparable return strategies of the Portfolio.

Portfolio Assets

Eligible portfolio holdings are typically comprised of highly rated securities, including money-market

funds, investment-grade corporate debt, CP, the Local Agency Investment Fund (LAIF), U.S. Treasury and Agency securities. The portfolio has to purchase securities with a rating of A or better. The Anaheim Treasurer's Investment Pool's primary objective is to provide safety of principal followed by maintenance of liquidity and return on investment. The various city departments are the Investment Pool's predominant investors. The short-term portfolio's benchmark is the ninety-one day T-bill and it is managed with the view that cash is needed for operating purposes within a 6-month period. The long-term portfolio uses the ML 1-3 Year US Treasury benchmark. The Investment Pool's overall duration is currently 1.8 years with a maximum duration of 3 years. Union Bank of CA is the custodian for the pool.

Standard & Poor's Analyst: Guyna Johnson - (1) 312-233-7008
