

+COUNCIL AGENDA REPORT

City of Anaheim OFFICE OF THE CITY TREASURER

DATE: MAY 29, 2012
FROM: OFFICE OF THE CITY TREASURER
SUBJECT: INVESTMENT PORTFOLIO REPORT – APRIL 2012

ATTACHMENT (Y/N): YES ITEM #

RECOMMENDATION:

That the City Council, by Motion, approve the Investment Portfolio Report for April 2012.

DISCUSSION:

This is the investment report for the City's general pool for the month ending April 30, 2012. The report is provided to ensure that the City Council is informed as to the investment activities and fulfills the reporting requirements of the City's adopted investment policy.

COMPLIANCE:

All investment transactions were executed in accordance with the California Government Code and the City's Investment Policy. There is sufficient liquidity to meet the City's anticipated expenditure requirements for the next six months.

INVESTMENT SUMMARY:

The following table shows summary investment information for the month ending April 30, 2012:

	Short-term Portfolio	Long-term Portfolio	Total Portfolio Values
Portfolio Balance (Market Value) *	\$ 120,322,637	\$ 268,779,964	\$ 389,102,601
Effective Yield	0.25 %	2.09 %	1.51 %
Avg. Weighted Maturity	10 Days	2.3 Years	1.6 Years
Net Earnings	\$ 16,619	\$ 480,011	\$ 496,630
Benchmark**	0.03%	0.31%	0.25 %

* Portfolio balance includes approximately \$73.3 million of the 2011A Electric Bond project funds (March 2012)

** Benchmark value is the Interpolated Treasury Yield to the Portfolio's Avg. Weighted Maturity

INVESTMENT ACTIVITIES

The City Treasurer's Investment Portfolio has a current rating of "AAf" from Standard and Poor's (S&P). This rating was effective August 8, 2011, as a result of the action of S&P downgrading the debt issues of the United States Treasury and Federal Agencies from a credit rating of "AAA" to "AA+". The credit rating reflects the investment holdings of the City's Investment Portfolio (approximately 54% of funds in Federal Agency issues) and not the management of the investment fund.

It should be pointed out the downgrade in credit rating is the sole action of Standard and Poor’s, since the other two major national credit firms of Moody’s Investor Services and Fitch Ratings have maintained the “AAA” credit rating on all U.S. Treasury and Federal Agency debt issues. Even with the credit downgrade to the investment portfolio, the investment portfolio is still eligible and qualifies as a ‘permitted investment’ for City bond funds (i.e., project or acquisition funds).

This credit rating is for the City’s investment portfolio and does NOT reflect the credit rating of the City’s bond issues.

On August 11, 2008, the City of Anaheim’s Investment Policy was recognized and certified by the Association of Professional Treasurers of the United States and Canada (APT US&C) as meeting all standards and criteria established by the APT US&C.

INVESTMENT ENVIRONMENT

The month of April 2012 showed a decrease in interest rates. The financial issues in Europe continued to be watched by the investment community. Greece appears to have accepted the European Monetary Fund (EMF) austerity provisions; although a slowdown in economic activity has indicated Spain is entering a recessionary cycle. This economic slowdown continues to put pressure on keeping the United States fixed income markets interest rates at historic lows. This is evident with the Federal Reserve maintaining the benchmark “Federal Funds” interest rate in the established range of 0.00% to 0.25%. The extended length of time that interest rates have remained at these low levels can be seen by the State of California Local Agency Investment Fund (LAIF), where the month end interest rate posted is 0.367%, the lowest rate since the inception of the LAIF in January 1977.

At the Federal Open Market Committee (FOMC) meeting of April 25, 2012, the key Federal Funds interest rate remained unchanged at a target range of 0.0% to 0.25% with the continued focus statement of “risk to growth”. The Federal Funds rate was reduced to this target range at the December 2008 FOMC meeting. The Federal Funds interest rate is the interest rate that banks charge other banks to borrow money.

Federal Reserve Chairman Bernanke has announced he intends to keep rates at these levels through the end of calendar year 2014. The chart below shows the interest rates for U. S. Treasury issues for the month ending April 2012:

Source: Bloomberg Financial Systems

The U.S. economy continues to show slow incremental growth as we recover from the lows of the financial crisis of 2008. A key economic indicator we monitor is the national unemployment rate, which tends to show the overall health of the national economy. For the month of April 2012, the national unemployment rate was reported at 8.1%, down 0.1% from the March 2012 level of 8.2% and significantly below the annual average rate of 9.0% for the 2011 calendar year.

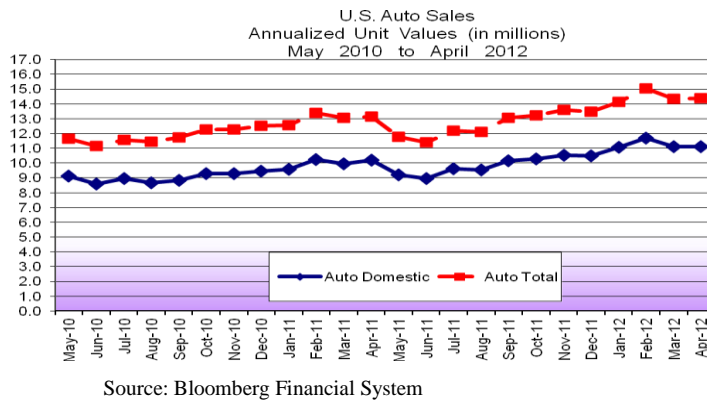

The unemployment rate is considered a “lagging” economic indicator and does not reflect immediate or current financial and economic events. The unemployment rate does indicate the level of idle workers as a percentage of the overall labor force. The chart below shows the national unemployment rate for the past twelve months:

A second economic factor we watch is the monthly Retail Sales (less Autos), which measures the level of consumer spending and provides an indication of the underlying vitality of the overall national economy. At the time of this monthly report, the April 2012 retail sales data had not been released, however, the March 2012 shows a continue increase in consumer spending, providing further indications the economy is continuing a slow incremental rebound from the malaise of the past three years. The chart below shows the monthly increase in consumer spending for the past twenty four months.

Supporting the growth in retail sales for the past months, we see the annualized rate of auto sales has continued its slow recovery and gradually increased, as the consumer begins to spend funds on the acquisition of new cars. Financial institutions report a robust volume increase in auto leasing, with the low interest rates an extra incentive. The chart below shows the monthly annualized auto sales for the past twenty four months:

The City’s investment portfolio remains strongly diversified and invested in high credit quality issues of U.S. Treasuries, Federal Agencies, Medium Term Corporate Notes and high grade commercial paper. Investments in money market accounts are restricted to U.S. Treasury and Federal Agencies only and a review of the State of California Local Agency Investment Fund (LAIF) shows high levels of liquidity and safe investments. The City’s investment strategy continues to focus on safety and providing liquidity for the City’s operational requirements.

INVESTMENT PERFORMANCE/

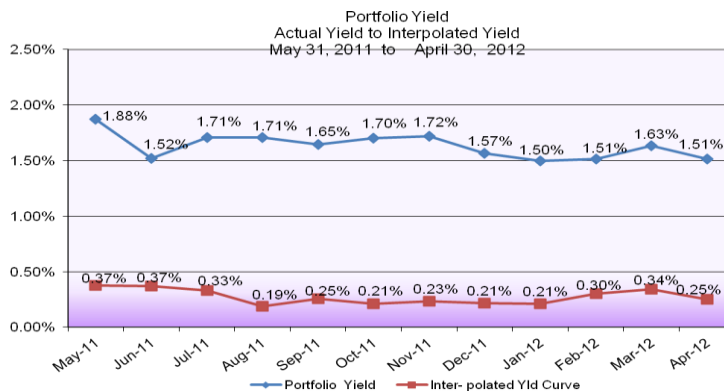

For April 30, 2012, the City Treasurer’s Investment Portfolio performance was:

	Amount of Funds (Market Value)	Maturity	Effective Yield	Interpolated Yield	Total Return Monthly	Total Return Annual
Short-Term Portfolio	\$ 120,322,637	10 days	0.25 %	0.03 %	0.018	0.299
Long-Term Portfolio	\$ 268,779,964	2.3 years	2.09 %	0.31 %	0.343	2.730
Total Portfolio	\$ 389,102,601	1.6 years	1.51 %	0.25 %	0.258	2.073

The portfolio balance includes a deposit, as of March 31, 2012 of \$73,286,011 for acquisition funds from the 2011A Electric Bonds. As a “AA” credit rated portfolio, we are recognized as a permitted investment by the bond indenture of the above bonds. These funds enjoy the advantage of superior market rates of return in a historically low interest rate environment.

Please note the use of interpolated yield values and total return values are guidelines and not used in the performance evaluation of the portfolio. The investment of public funds is exposed to a large range of variable factors, such as increases or decreases in revenues and expenditures as well as seasonal timing, which can affect the cash flow of the City.

The City’s investment portfolio continues to provide above market rates of return on funds invested as shown in the following graph which shows the City’s net overall performance to a market indicator for the past twelve months:

Source: Treasurer’s Office, Anaheim

A complete listing of the portfolio holdings and investment activity for the City of Anaheim’s Investment Portfolio for the month of April 2012 is on the following pages.

IMPACT ON BUDGET:

There is no impact on the General Fund.

Respectfully submitted,

Henry W. Stern, CTP
City Treasurer

FUND PROFILE

July 29, 2011

City of Anaheim Treasurer Investment Pool

Fund Credit Quality Ratings Definitions

AAAF The fund's portfolio holdings provide extremely strong protection against losses from credit defaults.

AAF The fund's portfolio holdings provide very strong protection against losses from credit defaults.

A The fund's portfolio holdings provide strong protection against losses from credit defaults.

BBB+ The fund's portfolio holdings provide adequate protection against losses from credit defaults.

BB+ The fund's portfolio holdings provide uncertain protection against losses from credit defaults.

B+ The fund's portfolio holdings exhibit vulnerability to losses from credit defaults.

CCC+ The fund's portfolio holdings make it extremely vulnerable to losses from credit defaults.

Plus (+) or Minus (-) The ratings from 'AA+' to 'CCC+' may be modified to show relative standing within the major rating categories.

Fund Credit quality ratings, identified by the 'F' subscript, are assigned to bond funds and other actively managed funds that exhibit variable net asset values. These ratings are current assessments of the overall credit quality of a fund's portfolio. The ratings reflect the level of protection against losses from credit defaults and are based on an analysis of the credit quality of the portfolio investments and the likelihood of counterparty defaults.

About the Fund

Fund Rating	AA+ / S1
Fund Type	Variable NAV Government Investment Pool
Investment Adviser	City of Anaheim CA
Portfolio Manager	Henry Stern
Fund Rated Since	July 2008

Portfolio Composition as of July 29, 2011

AGCY - Agency Fixed Rate; MMF - Money Market Fund; BOND - Corporate Fixed Rate; DCP - Commercial Paper

*As assessed by Standard & Poor's

Fund Highlights

- Average maturity 2 years or less
- The portfolio must purchase securities with a rating of A or better

Management

The Treasurer for the city of Anaheim, CA is responsible for overall management of the portfolio. The Treasurer has prior experience managing S&P rated government investment pools during his tenure at the cities of Los Angeles and Long Beach. The city of Anaheim's \$300+ million portfolio is divided into a short term and a long term portfolios, where \$95-\$120 million comprises the shorter-term component. The investment policy is reviewed and submitted to the City Council annually, with the current 2011 policy in effect, applies to all cash and investments controlled by the Anaheim Treasurer on behalf of the City.

Credit Quality

The 'AA+' fund credit quality rating is based on our analysis of the credit quality of the Portfolio's eligible investments, the counterparties, and overall management by the portfolio's investment managers. The 'AA+' rating signifies that the portfolio holdings provide very strong protection against losses from credit defaults. The 'S1' volatility rating signifies that a fund possesses low sensitivity to changing market conditions and a level of risk that is less than or equal to that of a portfolio comprised of the highest quality fixed-income instruments with an average maturity of one to three years. As part of our volatility analysis, we assessed the management, portfolio-level risk, target durations, and comparable return strategies of the Portfolio.

Portfolio Assets

Eligible portfolio holdings are typically comprised of highly rated securities, including money-market

funds, investment-grade corporate debt, CP, the Local Agency Investment Fund (LAIF), U.S. Treasury and Agency securities. The portfolio has to purchase securities with a rating of A or better. The Anaheim Treasurer's Investment Pool's primary objective is to provide safety of principal followed by maintenance of liquidity and return on investment. The various city departments are the Investment Pool's predominant investors. The short-term portfolio's benchmark is the ninety-one day T-bill and it is managed with the view that cash is needed for operating purposes within a 6-month period. The long-term portfolio uses the ML 1-3 Year US Treasury benchmark. The Investment Pool's overall duration is currently 1.5 years with a maximum duration of 3 years. Union Bank of CA is the custodian for the pool.

Standard & Poor's Analyst: Guyna Johnson - (1) 312-233-7008
