

COUNCIL AGENDA REPORT

City of Anaheim OFFICE OF THE CITY TREASURER

DATE: MAY 19, 2015
FROM: OFFICE OF THE CITY TREASURER
SUBJECT: INVESTMENT PORTFOLIO REPORT – APRIL 2015

ATTACHMENT (Y/N): YES **ITEM #**

RECOMMENDATION:

That the City Council, by Motion, approve the Investment Portfolio Report for April 2015.

DISCUSSION:

This is the investment report for the City's general pool for the month ending April 30, 2015. The report is provided to ensure that the City Council is informed as to the investment activities and fulfills the reporting requirements of the City's adopted investment policy.

COMPLIANCE:

All investment transactions were executed in accordance with the California Government Code and the City's Investment Policy. There is sufficient liquidity to meet the City's anticipated expenditure requirements for the next six months.

INVESTMENT SUMMARY:

The following table shows summary investment information for the month ending April 30, 2015:

	Short-term Portfolio	Long-term Portfolio	Total Portfolio Values
Portfolio Balance (Market Value)	\$ 109,019,960	\$ 311,572,994	\$ 420,592,954
Effective Yield	0.21 %	1.25 %	0.98 %
Avg. Weighted Maturity	13 Days	2.3 Years	1.7 Years
Net Earnings	\$ 17,142	\$ 320,471	\$ 337,612
Benchmark*	0.01 %	0.68 %	0.48 %

* Benchmark value is the Interpolated Treasury Yield to the Portfolio's Average Weighted Maturity

INVESTMENT ACTIVITIES

The City Treasurer's Investment Portfolio has a current credit rating of "AAf" from Standard and Poor's (S&P). This rating was effective August 8, 2011, as a result of the action of S&P downgrading the debt issues of the United States Treasury and Federal Agencies from a credit rating of "AAA" to "AA+". The credit rating reflects the investment holdings of the City's Investment Portfolio (approximately 53% of funds in Federal Agency issues) and not the management of the investment fund.

This credit rating is for the City’s investment portfolio and does NOT reflect the credit rating of the City’s bond issues.

On August 11, 2008, the City of Anaheim’s Investment Policy was recognized and certified by the Association of Professional Treasurers of the United States and Canada (APT US&C) as meeting all standards and criteria established by the APT US&C.

INVESTMENT ENVIRONMENT:

The month of April 2015 showed mixed signs of financial stability in the U.S economy. The first quarter 2015 Gross Domestic Product (GDP) values showed growth of 0.2%, well below market expectations of 1.2% to 1.5%. Europe continues to struggle with a recessionary economy, with Greece playing the wild card. China continues to show slowing growth and the U.S. Dollar continued to increase in strength.

Conversely, the dramatic plunge in crude oil prices have stopped and even reversed during the month of April. The market price for crude oil has rebounded from the lows of \$47 per barrel to a price of \$59.63 at the end of April. We anticipate a continued upward trend to a range of \$60 to \$70 per barrel by mid- year. The following graph shows the price of the benchmark West Texas Intermediate Crude (light) for the past twelve months.

Source: Bloomberg Financial Systems

Interest rates in April 2015 showed slight changes in the yield curve, with short-term interest rates unchanged from March levels while longer term rates moved higher. The most dramatic changes showed the five year U.S. Treasury note closing the month at 1.43%, up six basis points (0.06%) from March’s value and the benchmark ten year U.S. Treasury note moving above two percent for the first time since December 2014. The Federal Reserve at their April 29, 2015 Federal Open Market Committee (FOMC) meeting kept the benchmark Federal Funds rate at 0 to 0.25%. The chart below shows the interest rates for U.S. Treasury issues for the month ending April 2015:

Source: Bloomberg Financial Systems

A key economic indicator watched by investors and the news media is the national unemployment rate, which tends to show the overall health of the national economy. For the month of April 2015, the national unemployment rate was reported at 5.4%, down 0.1% from the March value. The twelve month moving average is at 5.8%, which is significantly lower from the December 2013 average level of 7.4%. The unemployment rate is considered a “lagging” economic indicator and does not reflect immediate or current financial and economic events. The chart below shows the national unemployment rate for the past twelve months:

Source: U.S. Bureau of Labor Statistics

A more accurate gauge of the employment sector and the improving economy is the amount of jobs being created. The Bureau of Labor Statistics publishes monthly the value of US Employees on nonfarm payrolls, which is an indication of how the corporate or business sector is hiring. For the month of April 2015, the nonfarm payroll number was reported to be 223,000 new jobs created, above the market expectations of 200,000. For comparison, the March 2015 value was revised down to 85,000 new jobs from the previous monthly reported value of 126,000.

The annual (twelve month average) value with the revised values shows approximately 248,000 monthly new jobs are being created, which is above the value of 165,000 new monthly jobs that economists have said are needed to show sustained economic growth. It should be noted the nonfarm payroll values are subject to seasonal variations and revisions, making an analysis of a distinct trend in this indicator difficult at times. The chart below shows the nonfarm payroll values for the past two years:

Source: U.S. Bureau of Labor Statistics

Another economic factor we watch is the monthly Retail Sales (less Autos), which measures the level of consumer spending and provides an indication of the underlying vitality of the overall national economy. The April 2015 retail sales (less autos) values were not available at the time this report was prepared. For March 2015, the annualized retail sales value was released at \$349.7 billion, a monthly increase of \$1.3 billion or plus 0.4% from the February 2015 revised value of \$348.4 billion. The modest increase is a cause for concern for future growth as the

December, January and February values showed a significant decline over the November 2014 value of \$355.6 billion. Some of the decline may be due to the severe winter weather over the eastern half of the United States.

The annualized increase, year to year, showed a percentage increase of only 1.3%. The incremental increase shows the economy continues to expand, however, at a potentially slower pace than was earlier predicted. It is estimated that consumer spending accounts for nearly seventy percent of economic activity, so an increase in retail sales can indicate expanding economic activity. The chart below shows the monthly increase in consumer spending for the past twenty four months:

Source: Census Bureau, US Government

INVESTMENT PERFORMANCE:

The City’s investment portfolio remains strongly diversified and invested in high credit quality issues of U.S. Treasuries, Federal Agencies, Medium Term Corporate Notes and high grade commercial paper. Investments in money market accounts are restricted to U.S. Treasury and Federal Agencies only and a review of the State of California Local Agency Investment Fund (LAIF) shows high levels of liquidity and safe investments. The City’s investment strategy continues to focus on safety and providing liquidity for the City’s operational requirements.

For April 30, 2015, the City Treasurer’s Investment Portfolio performance was:

	Amount of Funds (Market Value)	Maturity	Effective Yield	Interpolated Yield	Total Return Monthly	Total Return Annual
Short-Term Portfolio	\$ 109,019,960	13 days	0.21 %	0.01 %	0.018	0.222
Long-Term Portfolio	\$ 311,572,994	2.3 years	1.25 %	0.68 %	0.069	1.546
Total Portfolio	\$ 420,592,954	1.7 years	0.98 %	0.48 %	0.057	1.259

As a credit rated investment portfolio of “AA” by Standard and Poor’s, we are recognized as a permitted investment for future bond funds issued by the City. The 2011A Electric Bond acquisition funds were expended in March 2015 and there are no other City of Anaheim bond issues in the investment portfolio as of April 30, 2015.

Please note the use of interpolated yield values and total return values are guidelines and not used in the performance evaluation of the portfolio. The investment of public funds is exposed to a large range of variable factors, such as increases or decreases in revenues and expenditures as well as seasonal timing, which can affect the cash flow of the City.

The City’s investment portfolio continues to provide above market rates of return on funds invested as shown in the following graph which shows the City’s net overall performance to a market indicator for the past twelve months:

Source: Treasurer’s Office, Anaheim

The interpolated yield curve value of 0.48% reflects current market interest rates comparable to the City’s Investment Portfolio average weighted maturity of 1.7 years as of April 30, 2015. As shown, the City’s Investment Portfolio interest earnings were 0.98% for April; approximate dollar earnings for the month of \$175,200 over market interest rates. Cumulative earnings for the City portfolio earnings over market interest rates for the past twelve months are approximately \$2,380,000.

A complete listing of the portfolio holdings and investment activity for the City of Anaheim’s Investment Portfolio for the month of April 2015 is on the following pages.

IMPACT ON BUDGET:

There is no budgetary impact. Interest income is allocated in various funds based on the performance of the Investment Portfolio.

Respectfully submitted,

Henry W. Stern, CTP
 City Treasurer

POOL PROFILE

September 30, 2014

City of Anaheim Treasurer Investment Pool

Fund Credit Quality Ratings Definitions

AAAf The fund's portfolio holdings provide extremely strong protection against losses from credit defaults.

AAf The fund's portfolio holdings provide very strong protection against losses from credit defaults.

Af The fund's portfolio holdings provide strong protection against losses from credit defaults.

BBBf The fund's portfolio holdings provide adequate protection against losses from credit defaults.

BBf The fund's portfolio holdings provide uncertain protection against losses from credit defaults.

Bf The fund's portfolio holdings exhibit vulnerability to losses from credit defaults.

CCCf The fund's portfolio holdings make it extremely vulnerable to losses from credit defaults.

Plus (+) or Minus (-) The ratings from 'AAf' to 'CCCf' may be modified to show relative standing within the major rating categories.

Fund Credit quality ratings, identified by the 'f' subscript, are assigned to bond funds and other actively managed funds that exhibit variable net asset values. These ratings are current assessments of the overall credit quality of a fund's portfolio. The ratings reflect the level of protection against losses from credit defaults and are based on an analysis of the credit quality of the portfolio investments and the likelihood of counterparty defaults.

About the Pool

Pool Rating	AAf / S1
Pool Type	Variable NAV Government Investment Pool
Investment Adviser	City of Anaheim CA
Portfolio Manager	Henry Stern
Pool Rated Since	July 2008

Portfolio Composition as of September 30, 2014

AGCY - Agency Fixed Rate; BOND - Corporate Fixed Rate; MMF - Money Market Fund; DCP - Commercial Paper

*As assessed by Standard & Poor's

Pool Highlights

- The City of Anaheim Treasurer Investment Pool holds securities that have an average maturity of two years or less.
- The pool must purchase securities with a rating of 'A' or better.

Management

The treasurer for the city of Anaheim, California, is responsible for overall management of the portfolio. The treasurer has prior experience managing Standard & Poor's-rated government investment pools from his tenure at the cities of Los Angeles and Long Beach. The City of Anaheim's \$400 million-plus portfolio is divided into a short-term and a long-term portfolio; \$95 million to \$120 million comprises the short-term component. The investment policy is reviewed and submitted to the city council annually—with the current 2012 policy in effect—and applies to all cash and investments controlled by the Anaheim treasurer on behalf of the city.

Credit Quality

Standard & Poor's rates City of Anaheim Treasurer Investment Pool 'AAf/S1'. The 'AAf' fund credit quality rating is based on Standard & Poor's analysis of the credit quality of the portfolio's eligible investments, the counterparties, and the overall management by the portfolio's investment managers. The 'AAf' rating demonstrates that the fund's portfolio holdings provide very strong protection against losses from credit defaults. The 'S1' volatility rating indicates that the pool possesses low sensitivity to changing market conditions and an aggregate level of risk that is less than or equal to that of a portfolio comprised of government securities maturing within one to three years and denominated in the base currency of the pool. As part of Standard & Poor's volatility

analysis, it assessed the management, portfolio-level risk, target durations, and comparable return strategies of the portfolio.

Portfolio Assets

Eligible portfolio holdings are typically comprised of highly-rated securities, including money-market funds, investment-grade corporate debt, commercial paper, the Local Agency Investment Fund (LAIF), and U.S. Treasury and agency securities. The pool can only purchase securities with a rating of 'A' or better. The pool's primary objectives are to provide safety of principal, followed by maintenance of liquidity and return on investment. Various city departments are the pool's predominant investors. The short-term portfolio's benchmark is the 91-Day Treasury bill, which is managed with the view that cash is needed for operating purposes within a six-month period. The long-term portfolio's benchmark is the Merrill Lynch 1-3 Year U.S. Treasury Index. The pool's overall duration is currently 1.5 years, with a maximum duration of three years. Union Bank of California is the custodian for the pool.
