

## COUNCIL AGENDA REPORT

### City of Anaheim OFFICE OF THE CITY TREASURER

**DATE:**           **SEPTEMBER 15, 2015**  
**FROM:**           **OFFICE OF THE CITY TREASURER**  
**SUBJECT:**       **INVESTMENT PORTFOLIO REPORT – AUGUST 2015**

**ATTACHMENT (Y/N):**   **YES**                               **ITEM #**

**RECOMMENDATION:**

That the City Council, by Motion, approve the Investment Portfolio Report for August 2015.

**DISCUSSION:**

This is the investment report for the City’s general pool for the month ending August 31, 2015. The report is provided to ensure that the City Council is informed as to the investment activities and fulfills the reporting requirements of the City’s adopted investment policy.

**COMPLIANCE:**

All investment transactions were executed in accordance with the California Government Code and the City’s Investment Policy. There is sufficient liquidity to meet the City’s anticipated expenditure requirements for the next six months.

**INVESTMENT SUMMARY:**

The following table shows summary investment information for the month ending August 31, 2015:

	<b>Short-term Portfolio</b>	<b>Long-term Portfolio</b>	<b>Total Portfolio Values</b>
Portfolio Balance (Market Value)	\$ 90,760,980	\$ 314,919,339	\$ 405,680,319
Effective Yield	0.24 %	1.24 %	1.01 %
Avg. Weighted Maturity	10 Days	2.0 Years	1.5 Years
Net Earnings	\$ 19,196	\$ 320,467	\$ 339,663
Benchmark*	0.01 %	0.74 %	0.60 %

\* Benchmark value is the Interpolated Treasury Yield to the Portfolio’s Average Weighted Maturity

**INVESTMENT ACTIVITIES**

The City Treasurer’s Investment Portfolio has a current credit rating of “AAf” from Standard and Poor’s (S&P). This rating was effective August 8, 2011, as a result of the action of S&P downgrading the debt issues of the United States Treasury and Federal Agencies from a credit rating of “AAA” to “AA+”. The credit rating reflects the investment holdings of the City’s Investment Portfolio (approximately 55% of funds in Federal Agency issues) and not the management of the investment fund.

This credit rating is for the City's investment portfolio and does NOT reflect the credit rating of the City's bond issues.

On August 11, 2008, the City of Anaheim's Investment Policy was recognized and certified by the Association of Professional Treasurers of the United States and Canada (APT US&C) as meeting all standards and criteria established by the APT US&C.

**INVESTMENT ENVIRONMENT:**

The month of August 2015 showed mixed signs of financial stability in the U.S economy. The first quarter 2015 Gross Domestic Product (GDP) values was a minus -0.07%, however the second quarter GDP value was released at 3.2%. The U.S. economy is showing a stronger than expected recovery, however, concerns in Europe over the Greek debt situation and the dramatic slowing of the Chinese economy has raised the volatility in financial markets.

Crude oil prices continue to trade in the range of \$47 to \$60 per barrel for the past eight months. We anticipate the price of oil to continue to trade in a range of \$40 to \$65 per barrel. The following graph shows the price of the benchmark West Texas Intermediate Crude (light) for the past twelve months.

Source: Bloomberg Financial Systems

Interest rates in August 2015 moved slightly higher reflecting the increased volatility in the international financial markets. The six month TBill closed August at 0.23% versus the July 2015 close of 0.15%. The two year TNote closed the month at 0.74%, up eight basis points (0.08%) from the prior month and the benchmark ten year TNote closed August at 2.22% compared to the July level of 2.18%. The Federal Reserve at their July 29, 2015 Federal Open Market Committee (FOMC) meeting kept the benchmark Federal Funds rate at 0.00% to 0.25%. The chart below shows the interest rates for U.S. Treasury issues for the month ending August 2015:

Source: Bloomberg Financial Systems

A key economic indicator watched by investors and the news media is the national unemployment rate, which tends to show the overall health of the national economy. For the month of August 2015, the national unemployment rate was reported at 5.1%, down two tenths from the July value of 5.3%. The twelve month moving average is at 5.5%, which is significantly lower from the December 2013 average level of 7.4%. The unemployment rate is considered a “lagging” economic indicator and does not reflect immediate or current financial and economic events. The chart below shows the national unemployment rate for the past twelve months:

Source: U.S. Bureau of Labor Statistics

A more accurate gauge of the employment sector and the improving economy is the amount of jobs being created. The Bureau of Labor Statistics publishes monthly the value of US Employees on nonfarm payrolls, which is an indication of how the corporate or business sector is hiring. For the month of August 2015, the nonfarm payroll number was reported to be 173,000 new jobs created. For comparison, the July 2015 value was revised upward to 245,000 new jobs from the previous reported value of 215,000.

The annual (twelve month average) value with the revised values shows approximately 243,000 monthly new jobs are being created, which is above the value of 165,000 new monthly jobs that economists have said are needed to show sustained economic growth. It should be noted the nonfarm payroll values are subject to seasonal variations and revisions, making an analysis of a distinct trend in this indicator difficult at times. The chart below shows the nonfarm payroll values for the past two years:

Source: U.S. Bureau of Labor Statistics

Another economic factor we watch is the monthly Retail Sales (less Autos), which measures the level of consumer spending and provides an indication of the underlying vitality of the overall national economy. The August 2015 retail sales (less autos) values were not available at the time this report was prepared. For July 2015, the annualized retail sales value was released at \$353.7 billion, a monthly increase of \$1.2 billion or a plus 0.4% from the June

2015 revised value of \$352.5 billion. The modest increase is due to revisions by the Bureau of Labor Statistics of recent past months of consumer activity and is subject to revision. The retail sales values do show continued consumer spending but at small incremental increases. Some of the anemic growth in December thru April may be due to seasonal spending and the severe winter weather over the eastern half of the United States. Renewed consumer spending is evident in the uptrend in retail sales from March through July of this year.

The annualized increase, year to year, showed a percentage increase of 1.2%. The incremental increase confirms the economy continues to expand, however, the recent value indicates a potentially slower pace than was earlier predicted. It is estimated that consumer spending accounts for nearly seventy percent of economic activity, so an increase in retail sales can indicate expanding economic activity. The chart below shows the monthly increase in consumer spending for the past twenty four months:

Source: Census Bureau, US Government

**INVESTMENT PERFORMANCE:**

The City’s investment portfolio remains strongly diversified and invested in high credit quality issues of U.S. Treasuries, Federal Agencies, Medium Term Corporate Notes and high grade commercial paper. Investments in money market accounts are restricted to U.S. Treasury and Federal Agencies only and a review of the State of California Local Agency Investment Fund (LAIF) shows high levels of liquidity and safe investments. The City’s investment strategy continues to focus on safety and providing liquidity for the City’s operational requirements.

For August 31, 2015, the City Treasurer’s Investment Portfolio performance was:

	Amount of Funds (Market Value)	Maturity	Effective Yield	Interpolated Yield	Total Return Monthly	Total Return Annual
Short-Term Portfolio	\$ 90,760,980	10 days	0.24 %	0.01 %	0.022	0.199
Long-Term Portfolio	\$ 314,919,339	2.0 years	1.24 %	0.74 %	0.001	1.327
Total Portfolio	\$ 405,680,319	1.5 years	1.01 %	0.60 %	0.005	1.039

As a credit rated investment portfolio of “AA” by Standard and Poor’s, we are recognized as a permitted investment for future bond funds issued by the City.

Please note the use of interpolated yield values and total return values are guidelines and not used in the performance evaluation of the portfolio. The investment of public funds is exposed to a large range of variable factors, such as increases or decreases in revenues and expenditures as well as seasonal timing, which can affect the cash flow of the City.

The City’s investment portfolio continues to provide above market rates of return on funds invested as shown in the following graph which shows the City’s net overall performance to a market indicator for the past twelve months:

Source: Treasurer’s Office, Anaheim

The interpolated yield curve value of 0.60% reflects current market interest rates comparable to the City’s Investment Portfolio average weighted maturity of 1.5 years as of August 31, 2015. As shown, the City’s Investment Portfolio interest earnings were 1.01% for August; approximate dollar earnings for the month of \$136,900 over market interest rates. Cumulative earnings for the City portfolio earnings over market interest rates for the past twelve months are approximately \$2,132,000.

A complete listing of the portfolio holdings and investment activity for the City of Anaheim’s Investment Portfolio for the month of August 2015 is on the following pages.

**IMPACT ON BUDGET:**

There is no budgetary impact. Interest income is allocated in various funds based on the performance of the Investment Portfolio.

Respectfully submitted,

Henry W. Stern, CTP  
 City Treasurer

**POOL PROFILE**

September 30, 2014

**City of Anaheim Treasurer Investment Pool**

**Fund Credit Quality Ratings Definitions**

**AAAf** The fund's portfolio holdings provide extremely strong protection against losses from credit defaults.

**AAf** The fund's portfolio holdings provide very strong protection against losses from credit defaults.

**Af** The fund's portfolio holdings provide strong protection against losses from credit defaults.

**BBBf** The fund's portfolio holdings provide adequate protection against losses from credit defaults.

**BBf** The fund's portfolio holdings provide uncertain protection against losses from credit defaults.

**Bf** The fund's portfolio holdings exhibit vulnerability to losses from credit defaults.

**CCCf** The fund's portfolio holdings make it extremely vulnerable to losses from credit defaults.

**Plus (+) or Minus (-)** The ratings from 'AAf' to 'CCCf' may be modified to show relative standing within the major rating categories.

Fund Credit quality ratings, identified by the 'f' subscript, are assigned to bond funds and other actively managed funds that exhibit variable net asset values. These ratings are current assessments of the overall credit quality of a fund's portfolio. The ratings reflect the level of protection against losses from credit defaults and are based on an analysis of the credit quality of the portfolio investments and the likelihood of counterparty defaults.

**About the Pool**

Pool Rating	<b>AAf / S1</b>
Pool Type	Variable NAV Government Investment Pool
Investment Adviser	City of Anaheim CA
Portfolio Manager	Henry Stern
Pool Rated Since	July 2008

Portfolio Composition as of September 30, 2014

AGCY - Agency Fixed Rate; BOND - Corporate Fixed Rate; MMF - Money Market Fund; DCP - Commercial Paper

\*As assessed by Standard & Poor's

**Pool Highlights**

- The City of Anaheim Treasurer Investment Pool holds securities that have an average maturity of two years or less.
- The pool must purchase securities with a rating of 'A' or better.

**Management**

The treasurer for the city of Anaheim, California, is responsible for overall management of the portfolio. The treasurer has prior experience managing Standard & Poor's-rated government investment pools from his tenure at the cities of Los Angeles and Long Beach. The City of Anaheim's \$400 million-plus portfolio is divided into a short-term and a long-term portfolio; \$95 million to \$120 million comprises the short-term component. The investment policy is reviewed and submitted to the city council annually—with the current 2012 policy in effect—and applies to all cash and investments controlled by the Anaheim treasurer on behalf of the city.

**Credit Quality**

Standard & Poor's rates City of Anaheim Treasurer Investment Pool 'AAf/S1'. The 'AAf' fund credit quality rating is based on Standard & Poor's analysis of the credit quality of the portfolio's eligible investments, the counterparties, and the overall management by the portfolio's investment managers. The 'AAf' rating demonstrates that the fund's portfolio holdings provide very strong protection against losses from credit defaults. The 'S1' volatility rating indicates that the pool possesses low sensitivity to changing market conditions and an aggregate level of risk that is less than or equal to that of a portfolio comprised of government securities maturing within one to three years and denominated in the base currency of the pool. As part of Standard & Poor's volatility

analysis, it assessed the management, portfolio-level risk, target durations, and comparable return strategies of the portfolio.

**Portfolio Assets**

Eligible portfolio holdings are typically comprised of highly-rated securities, including money-market funds, investment-grade corporate debt, commercial paper, the Local Agency Investment Fund (LAIF), and U.S. Treasury and agency securities. The pool can only purchase securities with a rating of 'A' or better. The pool's primary objectives are to provide safety of principal, followed by maintenance of liquidity and return on investment. Various city departments are the pool's predominant investors. The short-term portfolio's benchmark is the 91-Day Treasury bill, which is managed with the view that cash is needed for operating purposes within a six-month period. The long-term portfolio's benchmark is the Merrill Lynch 1-3 Year U.S. Treasury Index. The pool's overall duration is currently 1.5 years, with a maximum duration of three years. Union Bank of California is the custodian for the pool.

**Standard & Poor's Analyst:** Michael Masih - (1) 212-438-1642
