

Desert Harvest II

The Cities of Anaheim, Burbank and Vernon have contracted with Desert Harvest II, LLC through Southern California Public Power Authority for a share of intermittent solar energy from one of two solar projects: the (150 MW) Desert Harvest project, or the (500 MW) Maverick project. The City of Anaheim's share is 36 MW.

The 25-year contract is slated to expire on November 30, 2045.
