Subject: Request for public works records for July 2018- current

Good morning,

Again, we are requesting a permit summary or copies of private and public works grading, building and Fire Sprinkler Permits for all commercial and residential locations and all projects beginning July 2018 thru current. If a permit summary report could be generated that would suffice.

The categories we are interested in are; Permit Description, Permit Issue Date/Finalized, Owner, Contractor, Contractor Cell & Email, Project Description, and Valuation. Types of permits we are **not** interested in: block wall, air conditioner, solar, temporary fence, window change outs, patio covers, water heaters, electrical panel upgrades, re-roofing, & pools.

Scanned copies of documents via e-file/email would be preferable if possible, if not, we are willing to pay for data to be copies to a CD or Zip.

Attached is a copy of what has been sent to us in the past for your city.

Thank you in advance,

Maribel Spillard, Office Manager
