Do you know how to communicate when cell phones don't work?

Do you know how to communicate when disasters strike?

What is RACES?

RACES is a public service provided by volunteer communications groups within government agencies in times of extraordinary need. Traditional RACES operations involve emergency message handling on Amateur Radio Service frequencies. These operations typically involve messages between critical locations such as hospitals, emergency services, potential shelters, and any other location where communications are needed. These communications are handled in any mode available, with 2 meters FM being the most prevalent.

Who we are?

Anaheim RACES are a pool of licensed and trained volunteer and public safety communicators that can be called on in time of need. They have been trained to assist the City of Anaheim during times of emergency or non-emergency situations. Anaheim RACES is an Amateur Radio team whose volunteers may be employed during a variety of emergency/disaster situations where normal governmental communications systems have sustained damage or when additional communications are required or desired.

Member Benefits?

- Put your interest in amateur radio to good use
- Serve your community in times of need
- Learn everything there is to know about emergency communications in the City Emergency Operations Center (EOC)
- Uniforms, identification, training and camaraderie
