

TRACKING CORONAVIRUS ANAHEIM RESPONDS

Tracking coronavirus: homeless resources

- **What:**
 - Provide trailers and motel space for homeless individuals who are at-risk or sick with Covid-19, the illness caused by coronavirus
 - Add additional bed space to get homeless off the streets and into shelters
 - Ensure shelters are following best practices for possible cases of Covid-19
- **Why:**
 - Slow the spread of coronavirus in the community and among homeless population
 - Prepare for potential cases among homeless or at shelters
 - Ensure those who are homeless on the streets or in Anaheim shelters have a safe place to go whether healthy or sick
- **Cost:** estimated \$1.5 million, depending on changes to need and timeframe
- **Funding:** state homeless funding, federal aid

Trailers

- **Trailers:** 39 camper trailers provided by state of California
- **When:** first trailers arrived April 7, 2020, final trailers arrived April 10, 2020
- **Where:**
 - 28 at Anaheim Emergency Shelter for isolation or quarantine if needed
 - 5 at motel identified for use by city of Anaheim for additional isolation or quarantine if needed
 - 4 at Anaheim Convention Center for staging, to be moved where needed for isolation or quarantine
 - 2 at La Mesa Emergency Shelter for isolation or quarantine if needed
- **Trailers value:** more than \$1 million, provided to city at no cost
- **Trailer operation cost:** estimated \$640,000 for services provided, utilities and added security, could vary based on use

- **Operators:** Salvation Army at Anaheim Emergency Shelter, Illumination Foundation at La Mesa Emergency Shelter, City Net at motel
- **Future use:** city will keep trailers and can use for other future needs, even beyond addressing homelessness

Motel

- **What:** city renting out all 60 rooms at Anaheim motel to be used for sick or at-risk homeless from shelters who need to be isolated or quarantined
- **First residents:** April 3, 2020
- **Motel cost:** estimated \$555,000 for motel rooms plus operator/service provider contract
- **Service provider/operator:** City Net
- **Onsite security:** provided by City Net, plus onsite manager remaining
- **Time frame:** up to 60 days, subject to updates based on ongoing coronavirus outbreak
- **Additional space:** both Anaheim Emergency Shelter and La Mesa Emergency Shelter have identified other spaces on site and off site for quarantine or isolation if needed beyond trailers and motel space

Salvation Army Interim Shelter

- **Temporary shelter beds:** 49 temporary shelter beds for homeless women
- **Opened:** April 15, 2020
- **Where:** The Salvation Army Thrift Store Anaheim, 1100 N. La Palma Parkway

- **Why:** to offer additional shelter beds before opening of Anaheim Emergency Shelter 101-bed expansion
- **Time frame:** until opening of Anaheim Emergency Shelter expansion in June
- **Operator:** The Salvation Army Orange County
- **How:**
 - Cots placed in now-empty store warehouse, at least six feet apart
 - Temporary restroom and shower trailers added onsite
- **Cost:** estimated \$400,000 for operation contract, shower/bathroom rental, security and utilities
- **Security:** city contract with Lyons Security Services for onsite security

Best practices

- **What:** Anaheim's two homeless shelters, the Anaheim Emergency Shelter operated by The Salvation Army, and the La Mesa Emergency Shelter operated by Illumination Foundation, have both taken measures to help reduce risk of coronavirus
- **How:** increased cleaning of doorknobs, railings, bathrooms and other frequently touched surfaces in the shelters; prohibiting nonessential visitors; limiting travel by shelter residents; adding sanitation stations
- **Unsheltered homeless:** Anaheim's nonprofit partner City Net continues regular outreach to those not in our shelters; City Net is following best practices for sanitation and physical distancing for employees and clients
- **Cases:** two reported cases of Covid-19 among staff at Anaheim Emergency Shelter in late March, both have recovered; no reported cases among shelter residents after testing performed by OC Health
