

COMMUNITY STAKEHOLDER GROUP INFORMATION SHEET

Purpose

The Community Stakeholder Group (CSG) for the Center City Corridors Specific Plan will serve in an advisory capacity to City staff and the consultant team throughout the Specific Plan process. The CSG will represent a range of community stakeholders and interests within Central Anaheim. The CSG will participate in the formulation and assessment of plan alternatives and recommend solutions to identified planning issues. While the CSG will review and comment on key elements of the Specific Plan, it will not have approval authority over the document.

Each of the stakeholder groups listed below may select one representative to serve on the CSG. This list is not final and is subject to change. In addition to this list, other “at-large” individuals may be considered as an at “At-Large” member, if their inclusion would further the goal of the CSG in reflecting the diverse interests of the Central Anaheim community.

Each stakeholder group would be responsible for selecting its own representative. In addition to this list, other “at-large” individuals would be considered if their inclusion would further the goal of ensuring that the diverse interests of the Central Anaheim community are represented. At-large appointments to the CSG would be made by the Planning Director through an application process. Applicants who are not selected may still attend and participate at the CSG meetings as the meetings will be open to the general public.

Stakeholder Commitment

Committee members are expected to commit to attend approximately four to five meetings over a ten to 14 month period.
