

how to make a d.i.y. holiday tree

USING UPCYCLED BOOKS FROM THE ANAHEIM PUBLIC LIBRARY

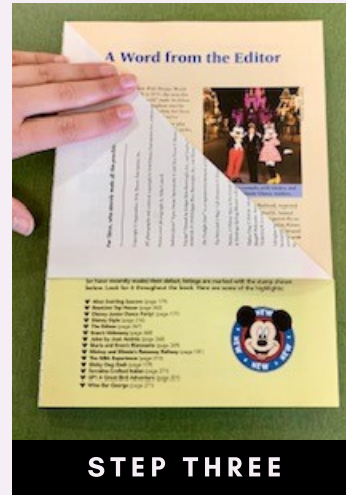

STEP ONE

collect 2 books of the same size

STEP TWO

tear off the cover of each book

STEP THREE

take the top right corner of the page and fold it down to meet the book's spine

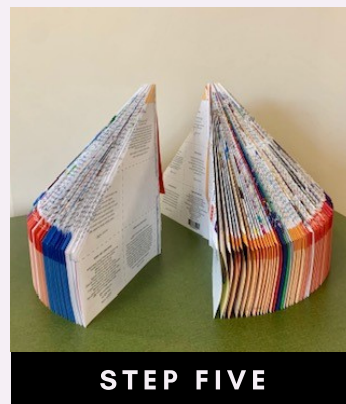

STEP FOUR

repeat this fold on every page of the book, until it looks like this...

when you stand up the book with all of the folds, it will look like this - it's one half of your tree!

STEP FIVE

repeat steps 1-4 with your 2nd book to make the other half of your tree

STEP SIX

connect the two books (you can staple, tape, etc.) until you are happy with the shape

STEP SEVEN

decorate your "book art" tree however you'd like!
